Journal of Innovation in Polytechnic Education

Call for Papers (CFP)

SPECIAL ISSUE:

“Navigating the Future of Work: Empowering Learners in a Transforming Ecosystem”

JIPE is pleased to announce a call for papers for a special issue on “**Navigating the Future of Work: Empowering Learners in a Transforming Ecosystem.**” This title aims to encapsulate the dynamic nature of the evolving work landscape and the critical role of education in preparing for these changes.

The world of work is undergoing a profound transformation, influenced by rapid technological advancements, shifting economic demands, and the aftermath of global challenges like the COVID-19 pandemic. This evolving ecosystem presents both opportunities and challenges for learners, educators, and industries, making it imperative to foster a dialogue on how education, particularly polytechnic education, can adapt and lead in this context.

This CFP invites contributions that explore innovative approaches, strategies, and solutions for equipping learners with the skills, knowledge, and mindset needed to thrive in the future workforce. We seek to encourage a broad range of submissions, including empirical research, theoretical analyses, case studies, and reviews that address the following themes, among others:

- **Inclusive and equitable approaches** to workforce preparation
- The **integration of emerging technologies** in education and training
- **Adaptive and resilient learning models** for future skills development
- The **role of polytechnic education** in bridging the gap between current curricula and future industry needs
- **Collaborative initiatives** between educational institutions and industries
- **Strategies for fostering lifelong learning** and continuous professional development

We aim to highlight work that is not only academically rigorous but also practical and impactful, offering insights that can guide educators, policymakers, and industry leaders in making informed decisions for the future.

Questions may be directed to Saran Davaajargal, Editor, or Anju Kakkar, Managing Editor at humberpress@humber.ca

Important Deadlines

- May 1** 500-word abstract—please submit under the **Expression of Interest** submission category on **JIPE**. See [JIPE Submissions Handbook](#) on how to create and account and our workflow process.
- May 21** Authors of successful proposals will be notified.
- Sept 30** Complete papers due
- Nov 30** Peer Reviews and revisions completed (Tentative deadline)
- Jan 2025** Special Issue to be released (Tentative deadline)

Read the [JIPE Submissions Handbook](#) to learn about the entire workflow process
