

# Reviewer Request Form

As part of the double-blind peer-review process, reviewers will receive an email with a link to a form similar to the one shown here.

Article submission type

## Original Research Articles

Thank you for agreeing to review the attached Original Research Article, under consideration for publication in the Journal of Innovation in Polytechnic Education.

**Original Research Articles** – papers that report on original empirical research with a focus on teaching and learning. Papers should include an Abstract, Introduction, Method, Results, Discussion, and Reference section, as well as any tables and/or figures. Research articles should be approximately 5000-8000 words in length.

Info will update according to manuscript submission type

Please complete the following form, providing specific and constructive feedback and suggestions.

### Manuscript Title \*

Fill out Manuscript title here

### Principal strengths of the paper: (e.g., quality of research design; significance - theoretical or practical - of the findings; quality of contribution) \*

Fill out principal strengths of paper here

### Principal weaknesses that are correctable: (e.g., organization of the paper; missing details; arguments requiring further development; insufficient coverage of the literature; alternative arguments to be considered; statistical analysis; length of article) \*

Fill out principal weaknesses that are correctable here

### Principal weaknesses that are not correctable: (e.g., fundamental issues with the methodology; inappropriate content for the article type or journal) \*

Fill out principal weaknesses that are not correctable here

### Minor points: (e.g., missing references; errors; awkward sentences; suggested re-phrasing; re-organization suggestions; typos; etc.)

### Please refer to page and line numbers in the manuscript, where possible. \*

Fill out minor points that are correctable here

### Recommendation: \*

- Accept, with no revisions - if the manuscript is suitable for publication as is (with appropriate copy-editing and/or formatting processes to follow)
- Revise and re-submit, with minor revisions - if the manuscript has minor changes required, such as the addition of minor details, a figure, etc.
- Revise and re-submit, with major revisions - if the contribution of the manuscript is likely to be sufficient, but it requires substantial changes, such as major re-organization of the text, revised or expanded statistical analysis, the addition of a new section, etc.)
- Reject - if the manuscript has fundamental weaknesses that cannot be addressed through major revisions and/or the paper is not appropriate for this journal and its mandate

### Confidential remarks to editor: (optional)

If you have any feedback that you would like to share with the editor, but would not like the author of the manuscript to see, please enter your comments here.
